### Remote Generator Kit
**Code:** KD900

The KD900 Key Remote Generator is ideal for diagnostic centres, automotive locksmiths and key cutting centres.

**KD900 Kit includes:**
- 1 x KD900 remote key generator
- 1 x PC data cable
- 2 x Remote data cables
- 3 x Assorted universal remotes (B type)
- 24 x assorted blades
- Hard shell protective case

### Remote Key Generator
**Code:** KD-X2

With this little machine you can produce new car key remotes via your mobile phone! Simply install the Mobile KD app and connect it to the KD-X2 via Bluetooth.

**KD-X2 Kit includes:**
- 1 x KEYDIY X2 remote makers
- 3 x Assorted universal remotes (B type)
- 2 x Remote data cables
- 1 x On-the-go (OTG) cable
- 1 x PC Data cable

### Display Case
**Code:** KD-DISPLAY

The KeyDIY Luxury Display Case comes with a range of universal remotes to cover a vast number of vehicles, so that you’re prepared for any situation.

**Display Case includes:**
- 1 x luxury carry case
- 1 x KD mini
- 40 x Assorted remotes
- 20 x assorted blades

### PRODUCT REGISTRATION

Free Technical Documentation, Security, and Lifetime Guarantee by Registering your Genuine Lishi Tool

Registering your Genuine Lishi vehicle opening tool takes only seconds but offers a lifetime of benefits. Genuine Lishi is known for high quality tools, support, and our ground breaking Lifetime Guarantee that comes with each tool sold.
If picking a lock open is not required for a particular job then a great tool to use is the Genuine Lishi reader/decoder. It’s as simple as decode the lock, cut the key and you’re set.

The original Genuine Lishi 2in1 Opening Tool was re-designed to not only pick and decode trunks and doors but also the ignition. Only the original Lishi tool features the ‘anti-twist support collar’ which allows this pick/decoder to convert from a door tool to an ignition tool in just seconds.
The Genuine Lishi 2 in 1 Pick and Decoder is a favourite auto locksmith tool among professionals around the globe due to its innovative design and the fact it combines 2 commonly used tools in 1. Designed to pick and decode auto door locks and trunks, once mastered a professional can easily complete the job within 3 minutes.

LIT-CUT
Alloy Key Cutter for Key Blanks Cutting
Can be used to cut flat keys directly, including auto keys, auto keys and even the latch keys.

TIBBE-MAGIC-KEY
The Genuine Lishi Ford Tibbe Pick overs numerous Ford models and even several Jaguar, Mazda, and Alfa Romeo models.

LIT-TRAIN
LISHI manuals and guides will give you all the information you need to work with our tools to an extremely high standard.
KEYLINE 994 LASER

The **994 Laser** is one of the best key cutting machine for automotive laser keys, edge-cut keys and Tibbe keys, cuts by code, by decode or by manual input of the key bittings, controlled by an innovative mobile console.

The Liger software developed by Keyline stands out for its capacity to process every cutting system and easily receive software updates. Complex operations are made extremely simple and intuitive thanks to the modern color interface, which is simple and easy to learn.

Optional jaws: G (OPZ09486B), H (OPZ09523B) and V (OPZ10260B)

884 DECRYPTOR MINI

Car key cloning made easy, with extreme calculation power and an unparalleled low price.

Easy, fast and mobile, the **884 Decryptor Mini** allows the cloning of Philips® fixed code and Philips® Crypto (ID46), Texas® fixed code, Texas® Crypto (4D) and Texas® 80-bit, Megamos® fixed code and Megamos® Crypto (ID48) transponders: covering more than 2000 car models, up to 95% of cars, motorbikes and trucks from the past 20 years still in operation.

Available with or without bluetooth adapter.

Optional software: 80BIT, ID48
The FUTURA AUTO is the easy-to-use electronic key cutting machine with integrated tablet, developed for duplicating all types of car keys with two interchangeable clamps. With the standard equipment you can duplicate also keys with narrow stems type Mercedes® HU64 and VAG® keys type HU162T. With the dedicated optional accessories it cuts also Ford® keys type FO21 and tubular keys for Harley-Davidson® type CH9T.

- Optimized cutting station for all vehicle key types.
- Software-guided key cutting procedures.
- Optimized cutting cycles.
- Immediate process control via led lights.
- Space-saving and portable solution.
- Duplication of broken flat keys.
- Software functions include: fast key search, integrated key hook position, compatibility with InstaCode, key cut preview, guided updating procedures, ‘Partial cuts’ function.

**Laser key cutting**
01RA clamp equipped with 106 and 107 jaws for fixing most laser keys on the market.

Cutters supplied: 01LW, 02LW, 06LW.

**Flat key cutting**
Four-sided nickel plated 01VA clamp with easy-rotation system.

Big gauge for perfectly aligning the keys.

Cutter supplied: 12L
Smart Pro is the cutting-edge, easy-to-use device for easily programming transponder keys, proximity keys and remotes and for reading the PIN codes for numerous manufacturers.

The state of the art OBD vehicle key programmer that works with most vehicle makes and models worldwide. It features an intuitive touch screen user interface and incorporates the entire Advanced Diagnostics Info Quest database with over 5000 vehicle models. It is a flexible, all-in-one solution offering the user a combination of purchase options.

**Easy to use software interface:** Smart Pro features a 10-inch colour touch screen guiding the user through a simple step-by-step sequence for all the key programming functions and procedures. The graphical user interface is intuitive and the software is available in multiple languages. Easy-to-read icons clearly indicate whether the device is successfully communicating with the vehicle or not.

**Extensive functionality:** Smart Pro programs transponder, proximity and slot keys and remotes and reads PIN codes for numerous manufacturers. Further functions include ECU identification, EOBD read and clear fault codes (manufacturer dependent), and archive of previously programmed vehicles.

Optional Smart Aerial (D745395AD) and Smart Remote Programmer (D749038ZB / D749040ZB) available.
RW4 Plus is the easy-to-use and portable cloning device for reading and copying in stand-alone mode a wide range of transponders used on a variety of vehicle keys. It is also able to generate certain types of transponders and save up to 99 codes in an on board archive.

**Transponder reading:** RW4 Plus detects the presence of fixed code and Crypto transponders in a vehicle key and identifies the type showing it on the display. The device can recognize the presence of several other transponders including Philips® Crypto 3, Megamos® Crypto 2 and Texas® AES transponders.

**Codes archive:** RW4 Plus: Up to 99 transponder codes can be saved in an on board archive that can be easily deleted when required. Unlimited codes can be archived when using a PC and the Silca Transponder Program.

**Easy powering:** RW4 Plus can be easily powered up in any vehicle by means of a cigarette lighter socket cable.

**Silca ID48 (M-BOX):** one device, one M-Snoop, one glass transponder and one simple process.

Silca ID48 is a web-based solution using the new M-Box add-on hardware and automatically updated software. It covers over 200 vehicle models from all the major automotive groups.

The 100% guaranteed cloning solution for Megamos® Crypto ID48 transponders.

New glass transponder fits original transponder keys and remotes, as well as all Silca’s replacement vehicle keys.

Unique M-Snoop technology reads original key data without need to cut a new key.

Simple visual confirmation of successful cloning before cutting the key blade.

**Kit includes 10 x T48 and 10 x GTI (glass) Chips**
Genuine Lishi. Speed, precision and durability make Genuine Lishi tools the best vehicle opening devices in the world.

Our tools are recognised by professionals around the globe for their quality, ease of use and outstanding ability to get the job done. From superior picks and decoders to training vices, dedicated courses and professional guides; our product range covers a spectrum of vehicles and lock types and every single tool has been designed and manufactured to the highest standard and for the most efficiency.
FUTURA AUTO

*Futura Auto* is the electronic key cutting machine for vehicle laser, dimple and flat keys, both with single and double cuts. With the standard equipment you can duplicate keys with narrow stems like Mercedes® HU64 and VAG® keys type HU162T.

SMART Pro

*Smart Pro* is the cutting-edge, easy-to-use device for easily programming transponder keys, proximity keys and remotes and for reading the PIN codes for numerous manufacturers.
